

A note from the parents of Marisol Ramirez:

"Marisol was born on March 19, 2001, with her small intestine completely blocked. On September 17, 2009, Marisol received a multi-organ transplant. Throughout Marisol's lifetime, she has received multiple blood transfusions. We are so thankful to everyone who donates blood! Without you, Marisol would not be here with us today!" ~Mr. and Mrs. Ramirez
